

PocketCampus

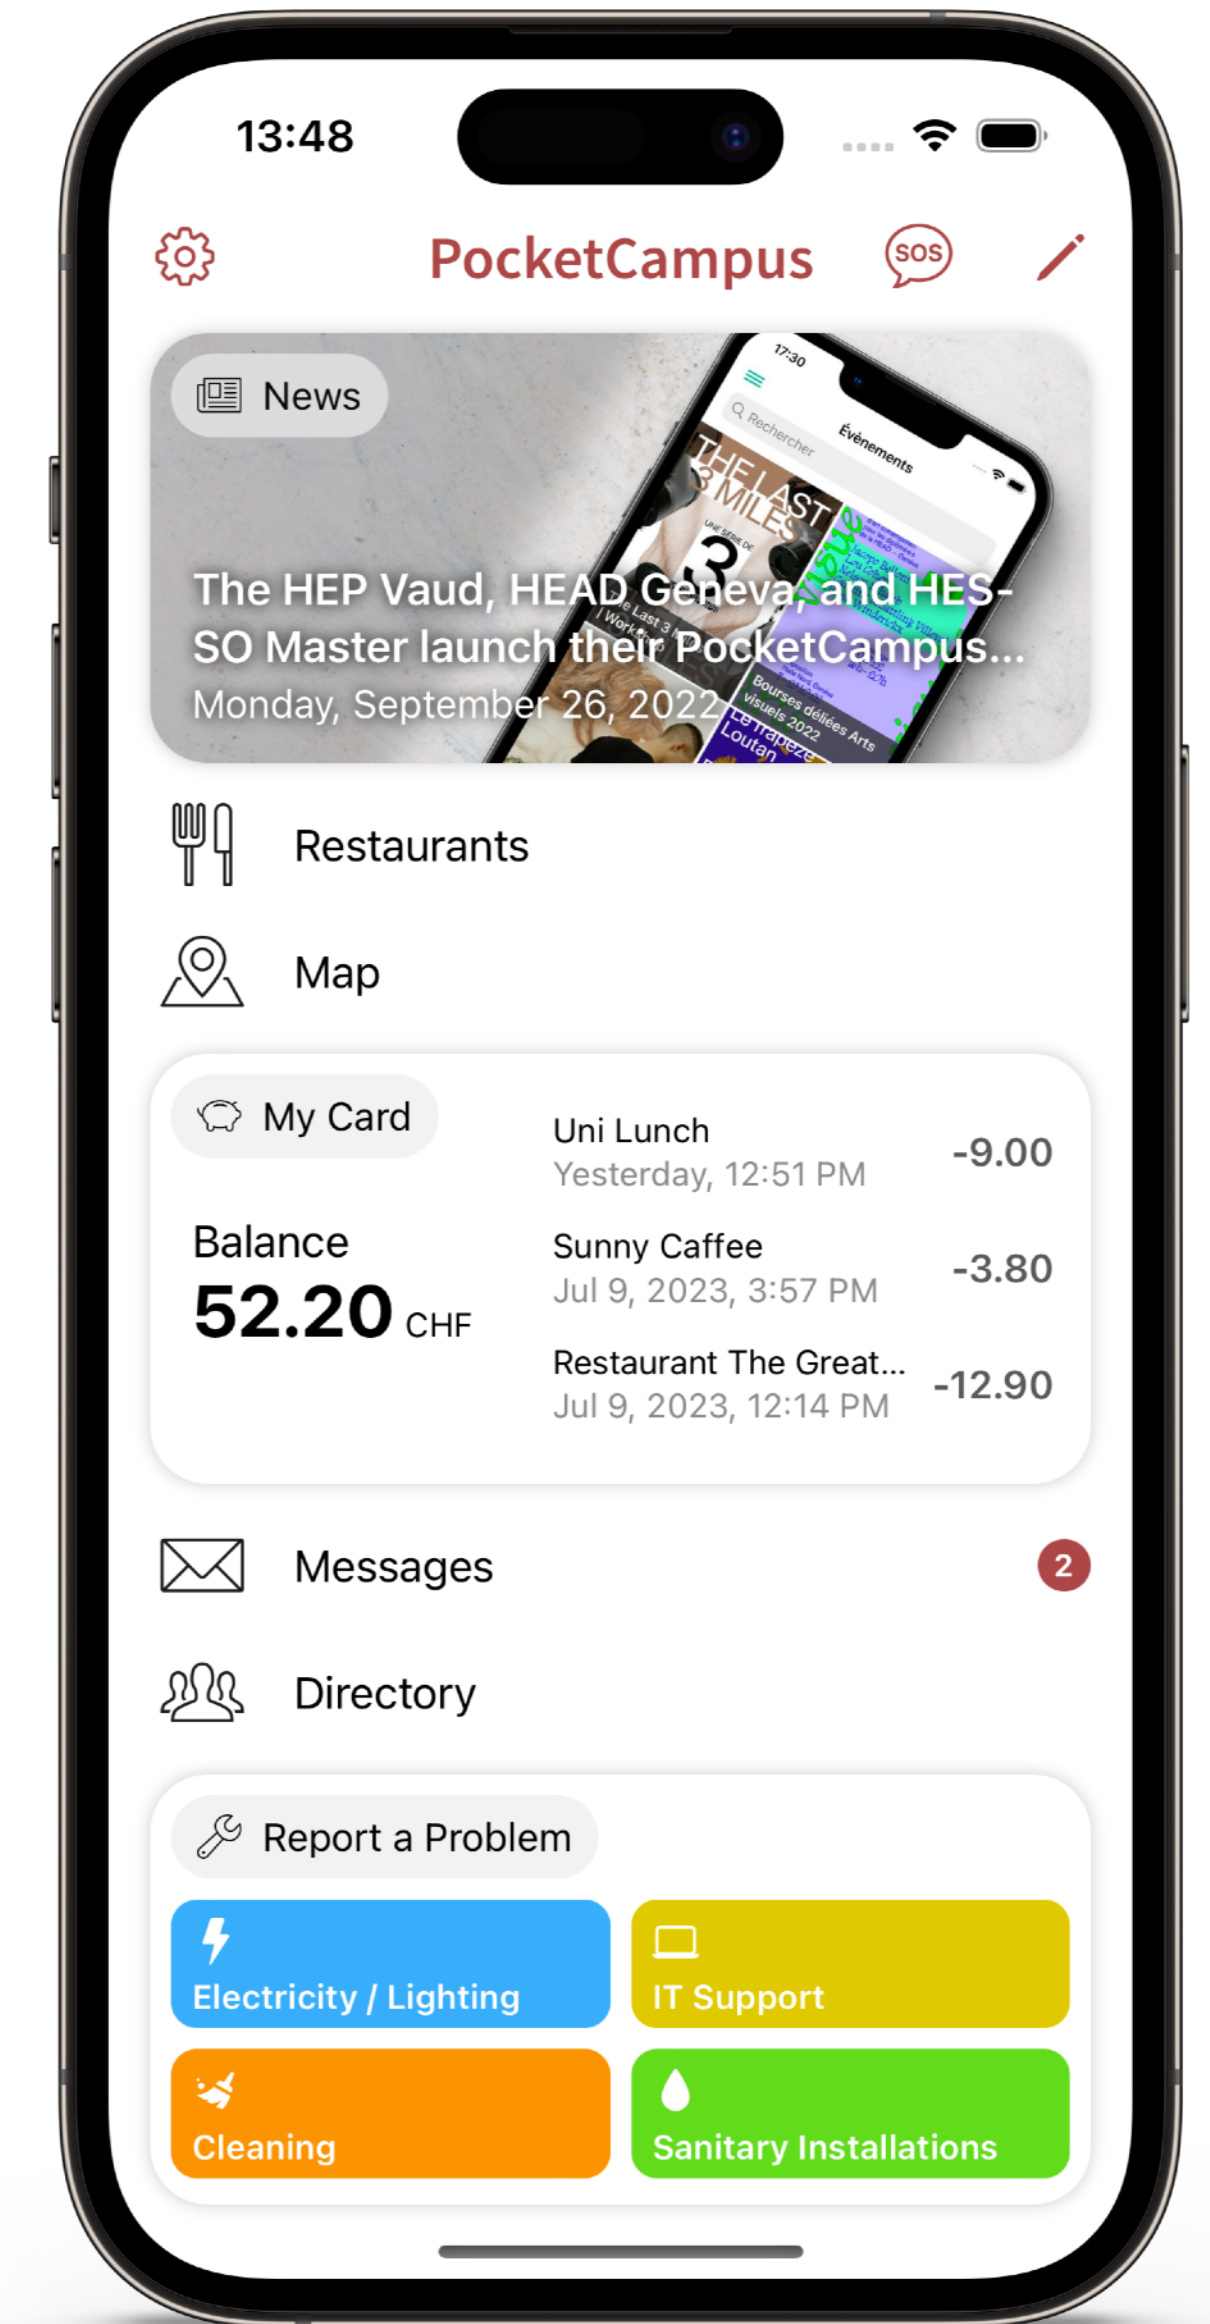

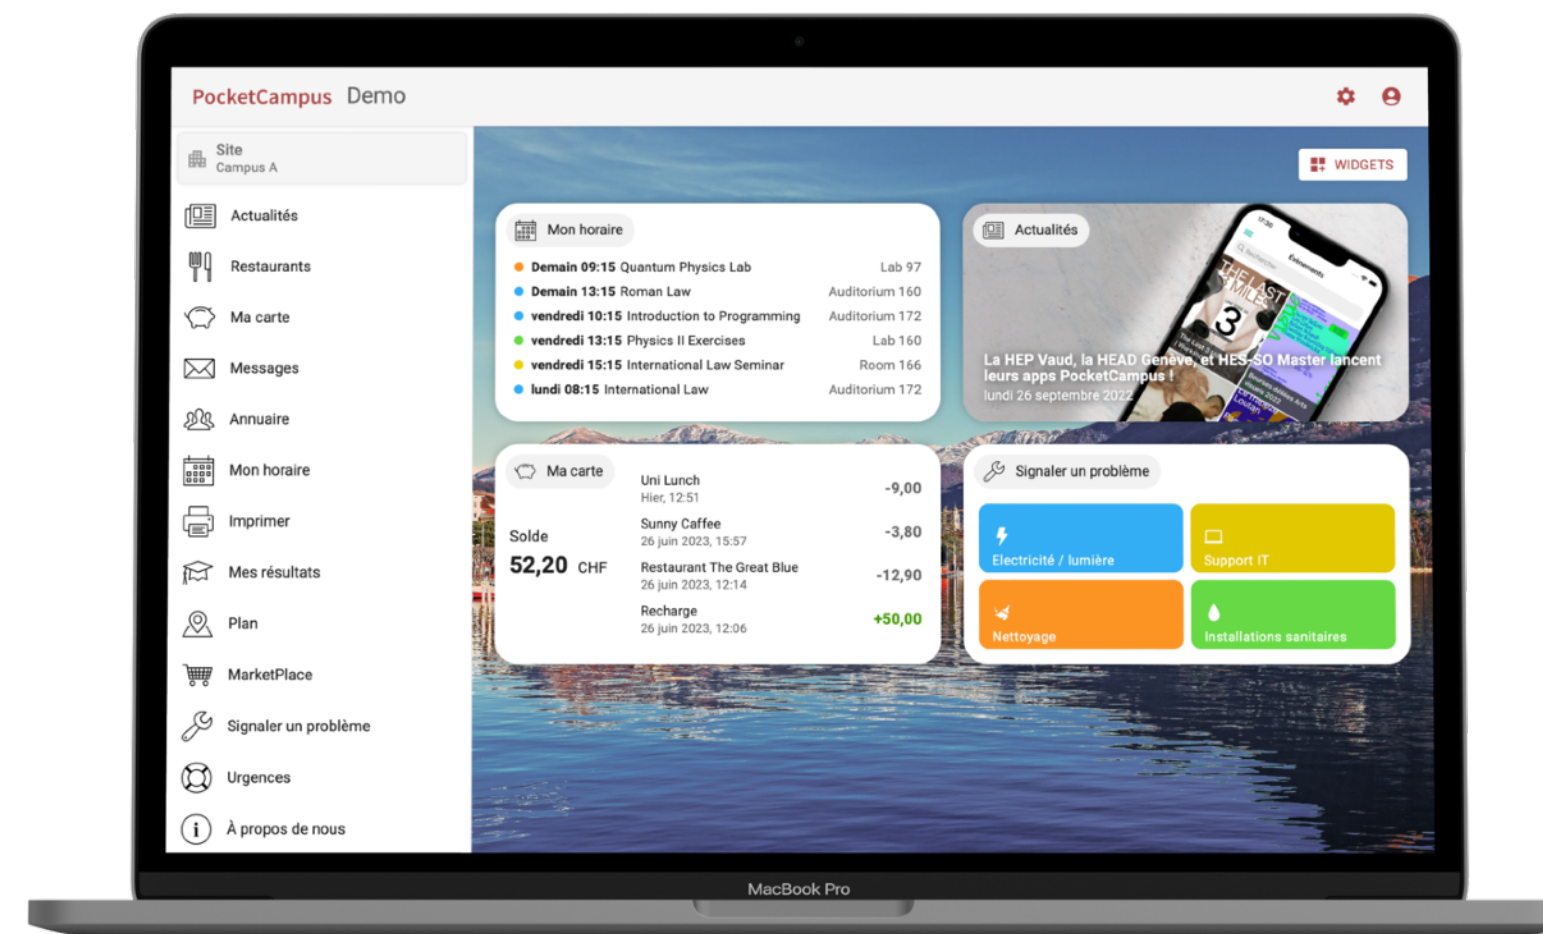

Portfolio

July 2023 version

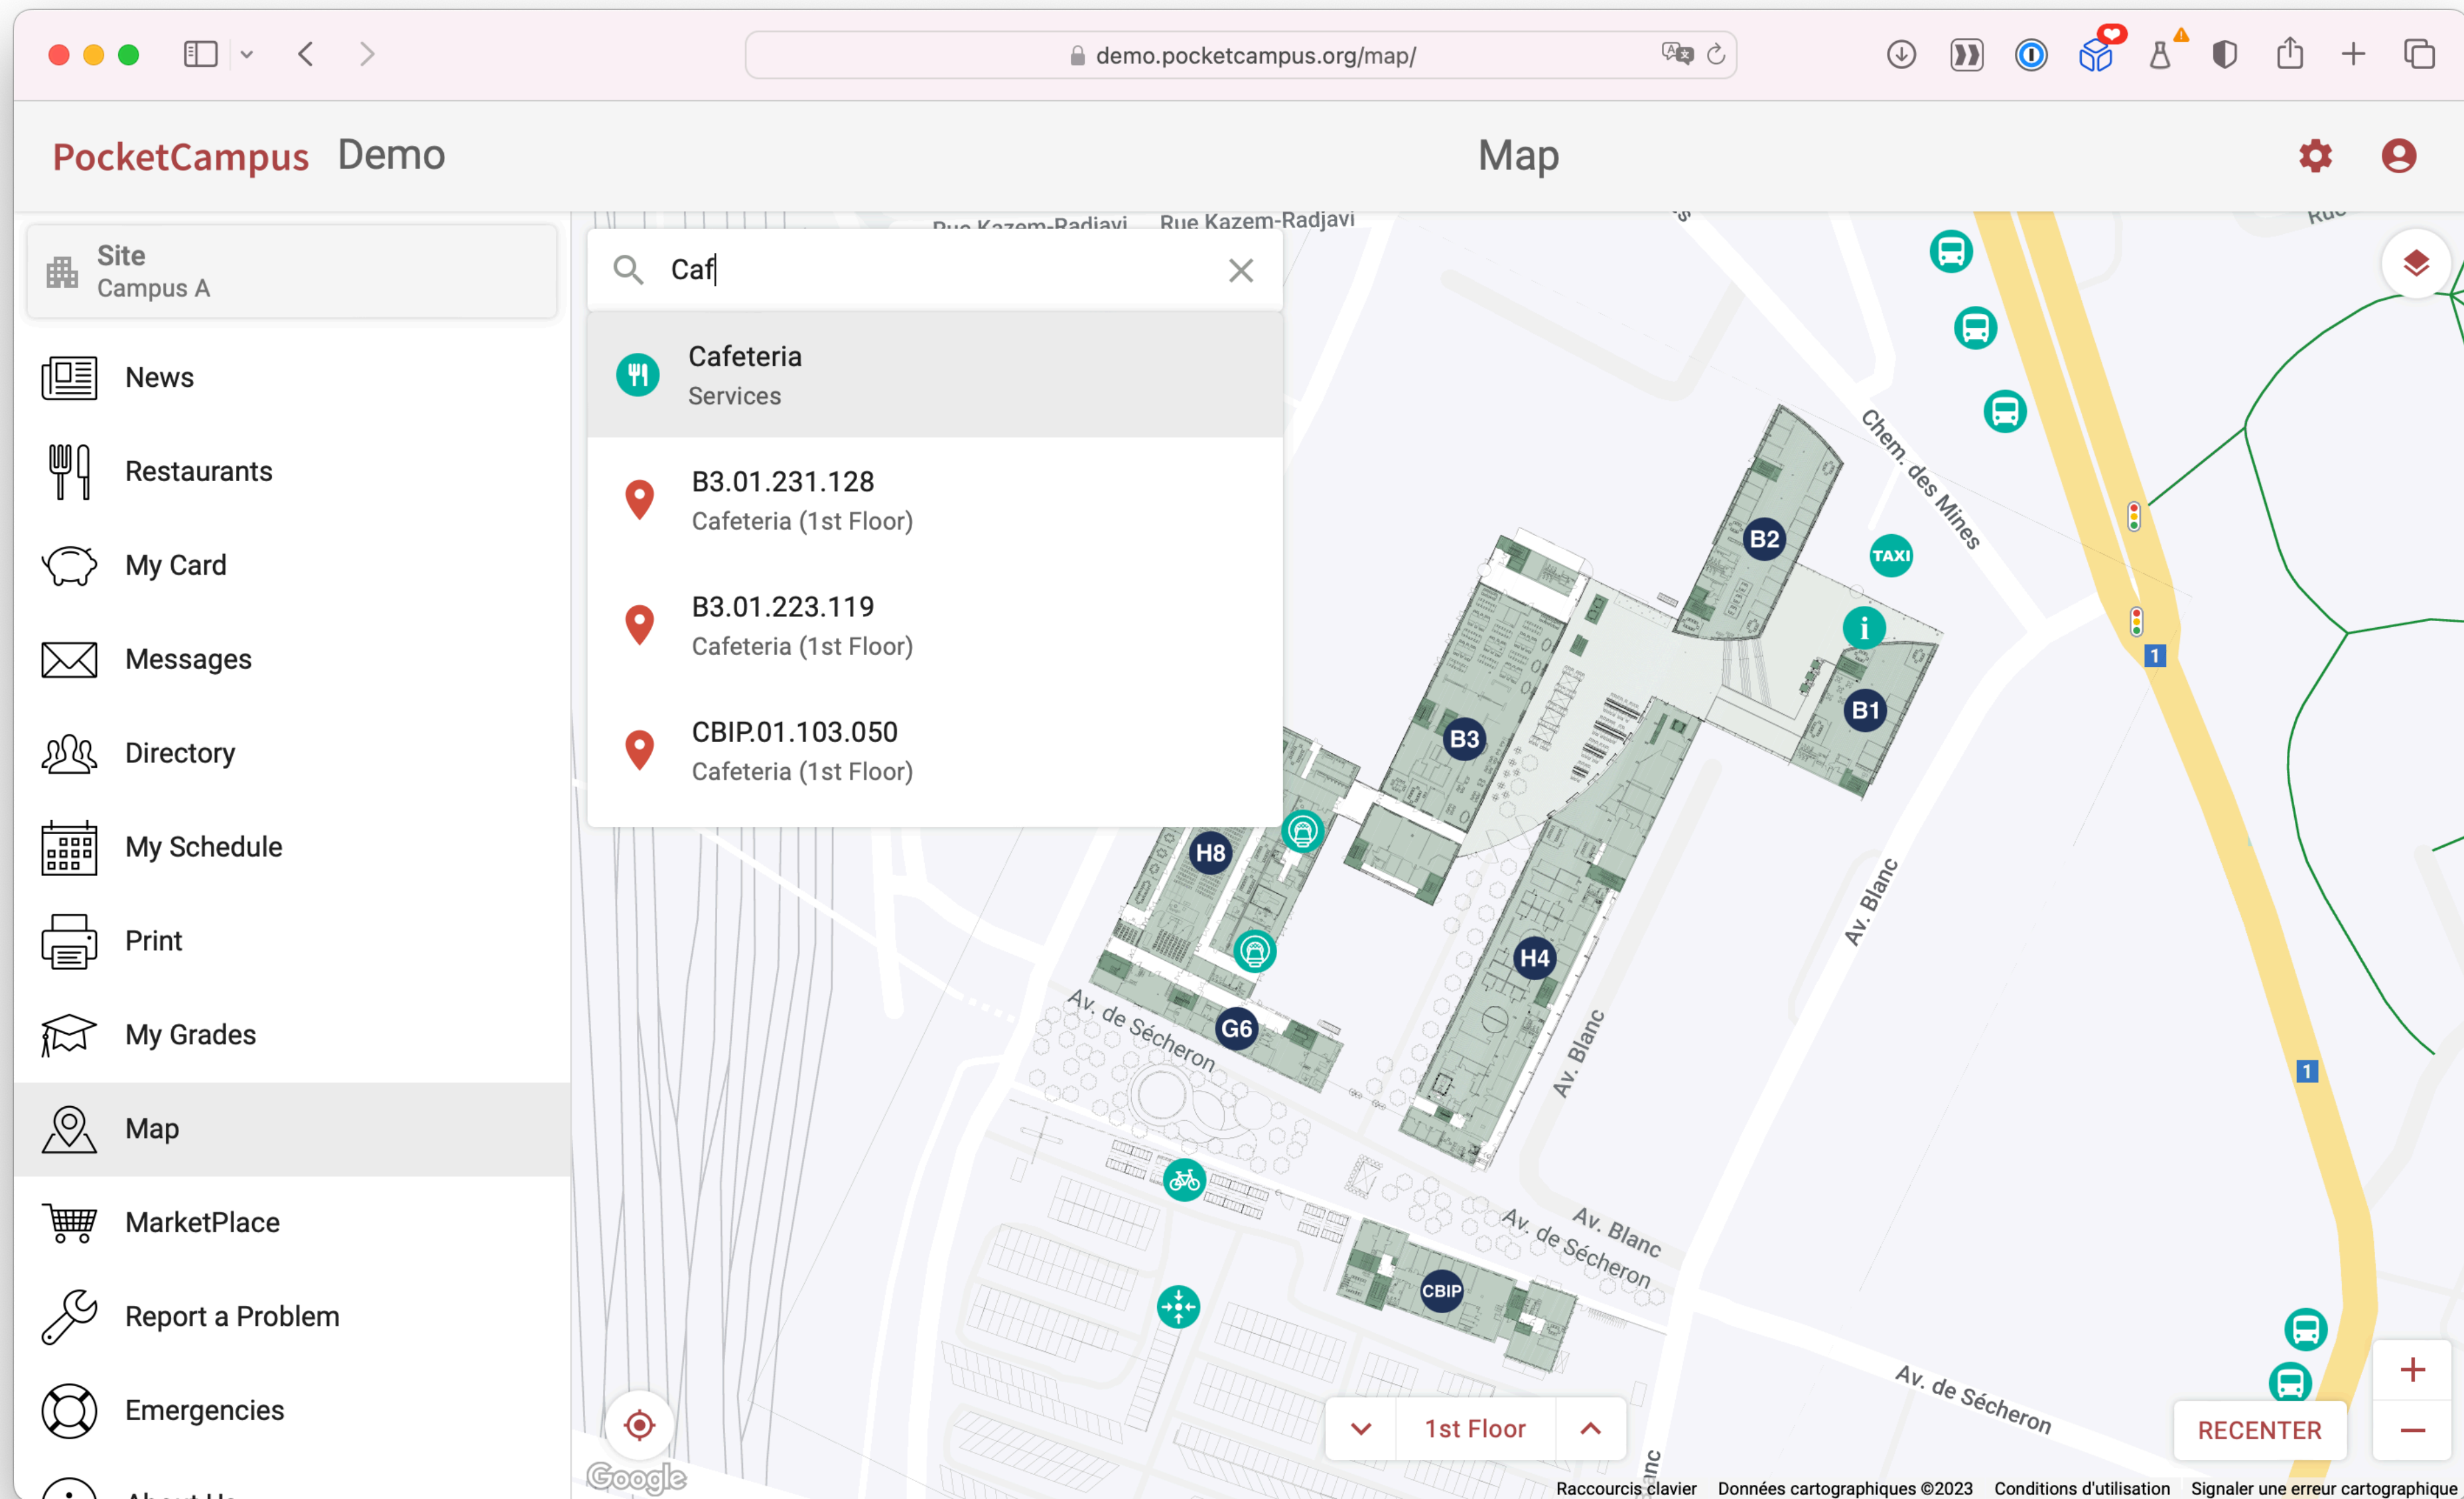

The PocketCampus Platform

- **On all devices**
 - iPhone & Android
 - iPad
 - Web App
- Single sign-on (**SSO**) with your institution login
- **Multi-site** – specific features & data per site
(campus / building / location...)
- **Back-office** for administrators
- Support for **multiple languages**
- Dark-mode enabled
- **Cloud** or **on-premise** architecture

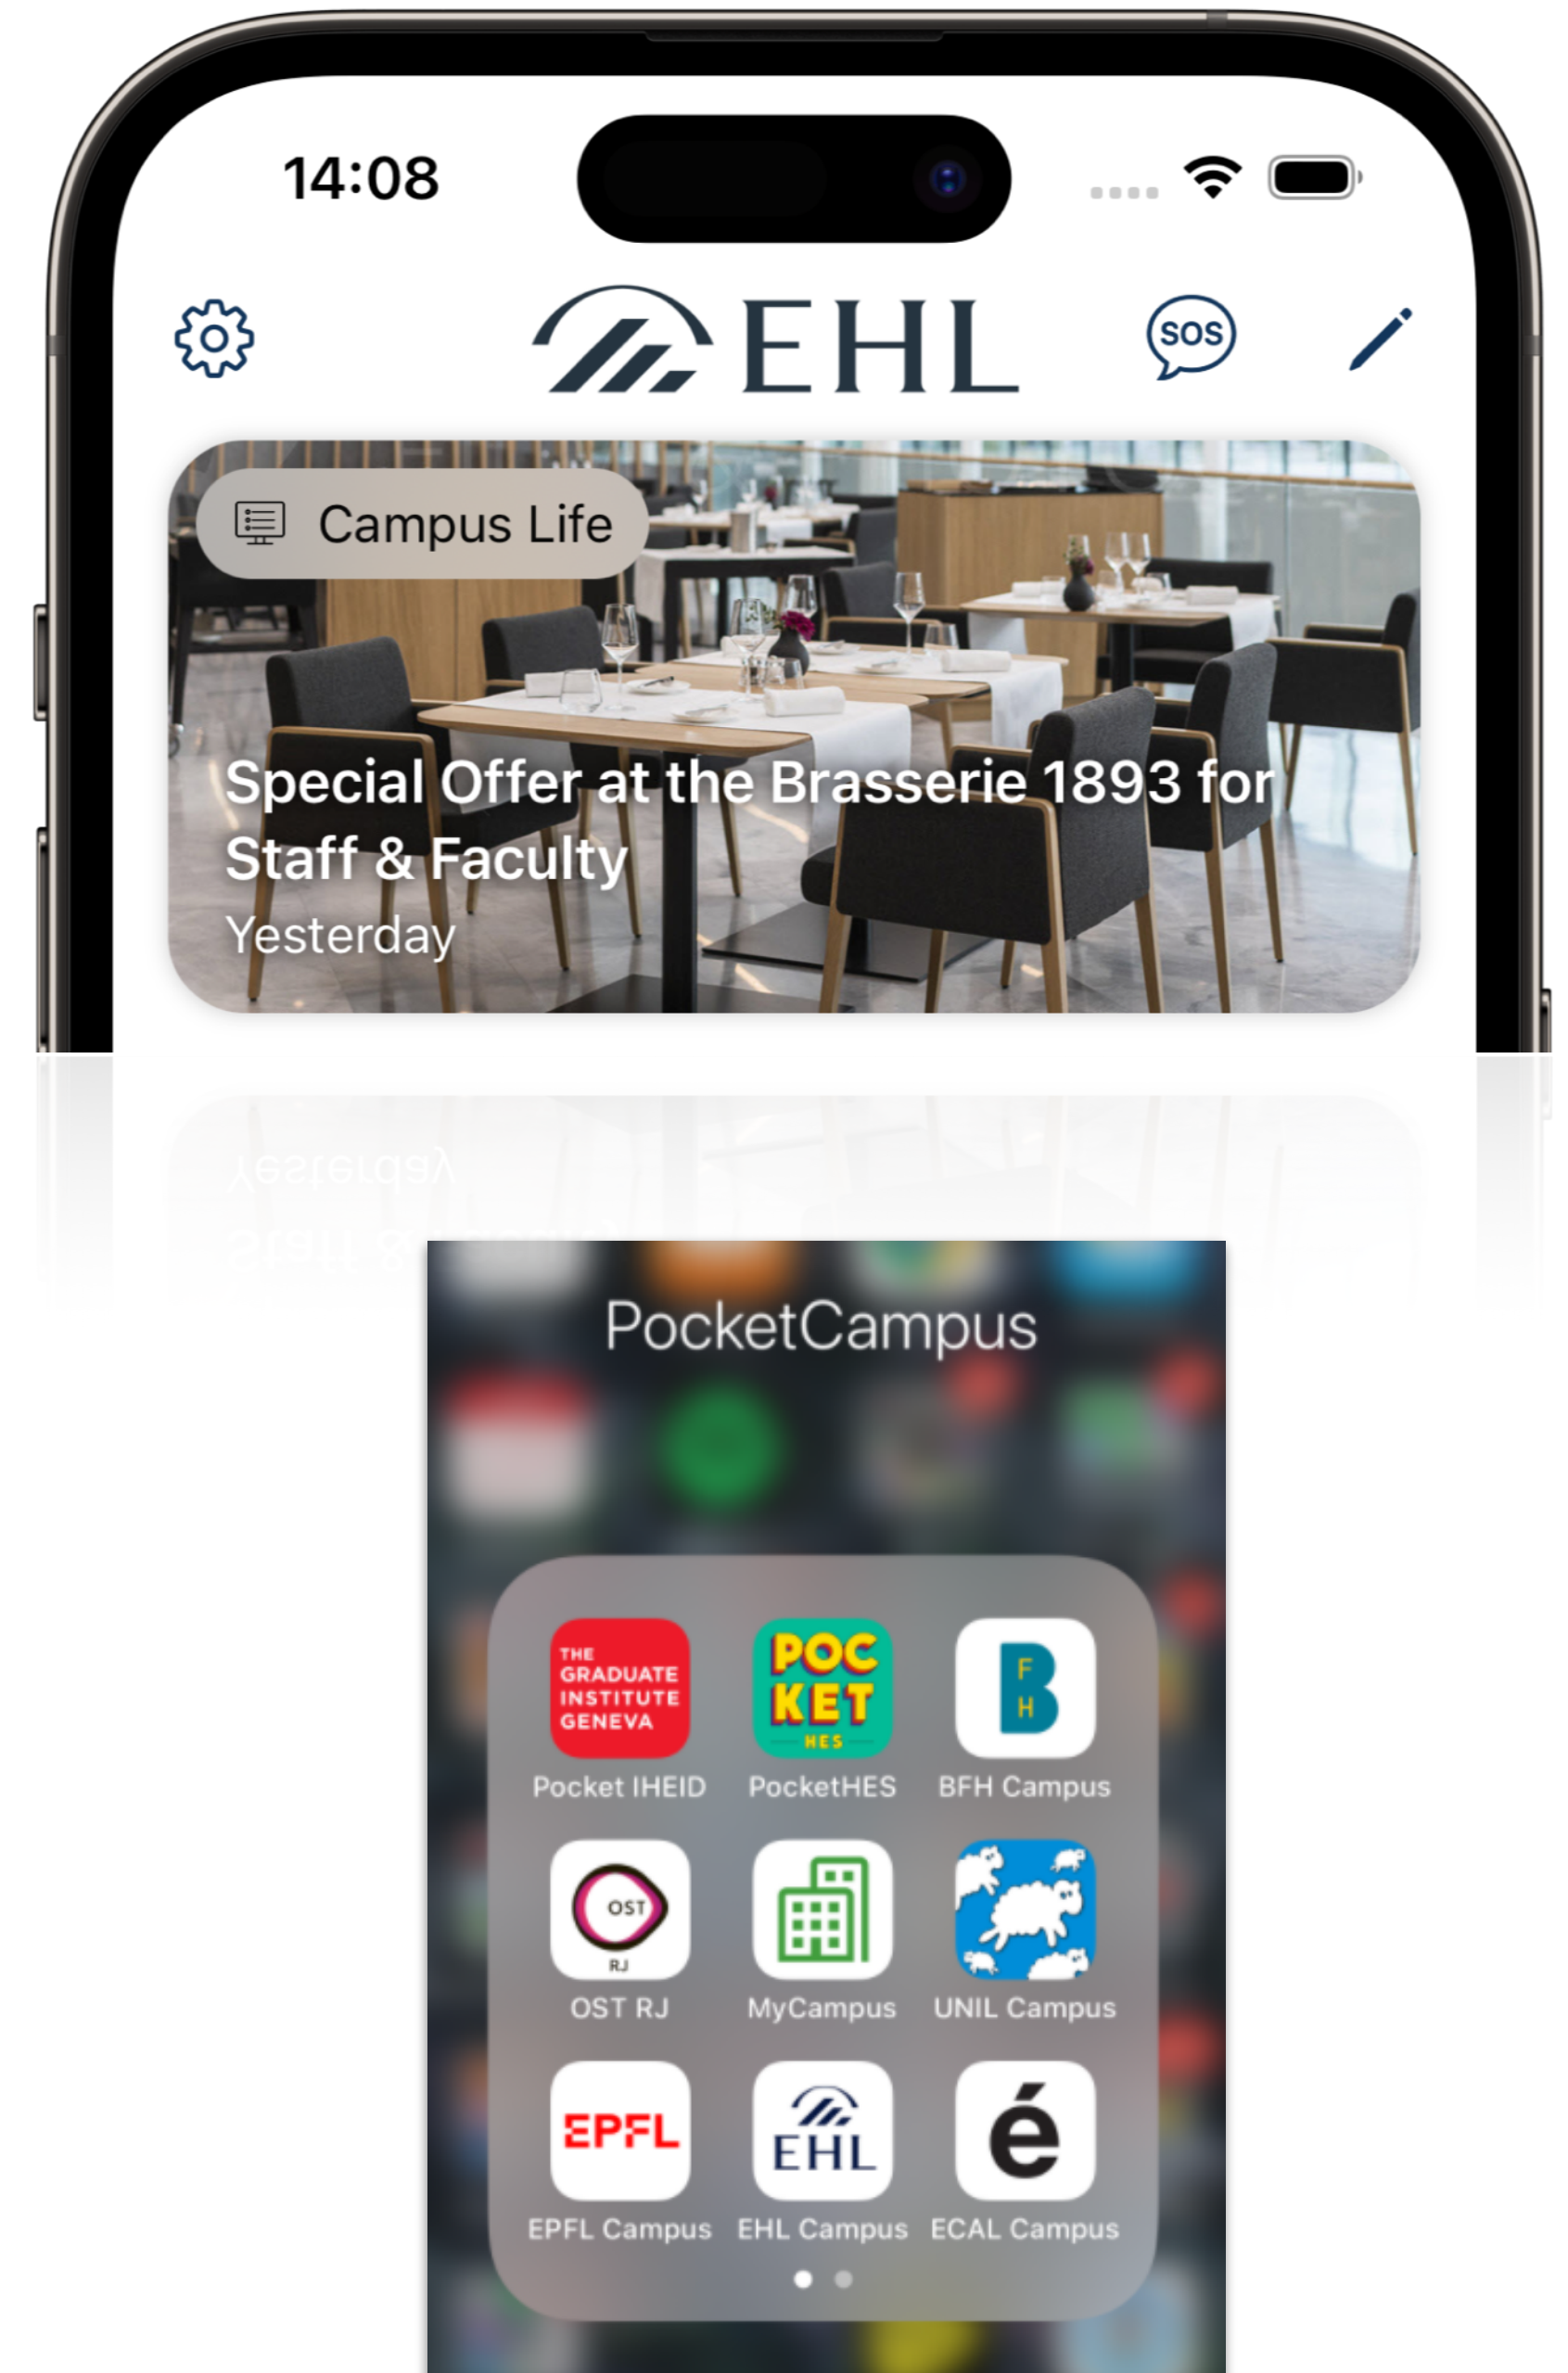

Great in a **desktop** browser too!

Platform

Branding & Customisation

- **White-label**
- Use your own branding assets (logo, icons)
- Define the **theme color(s)** of the app
- Chose the app **modules names**
- Branding inside the app can change per site/campus/department

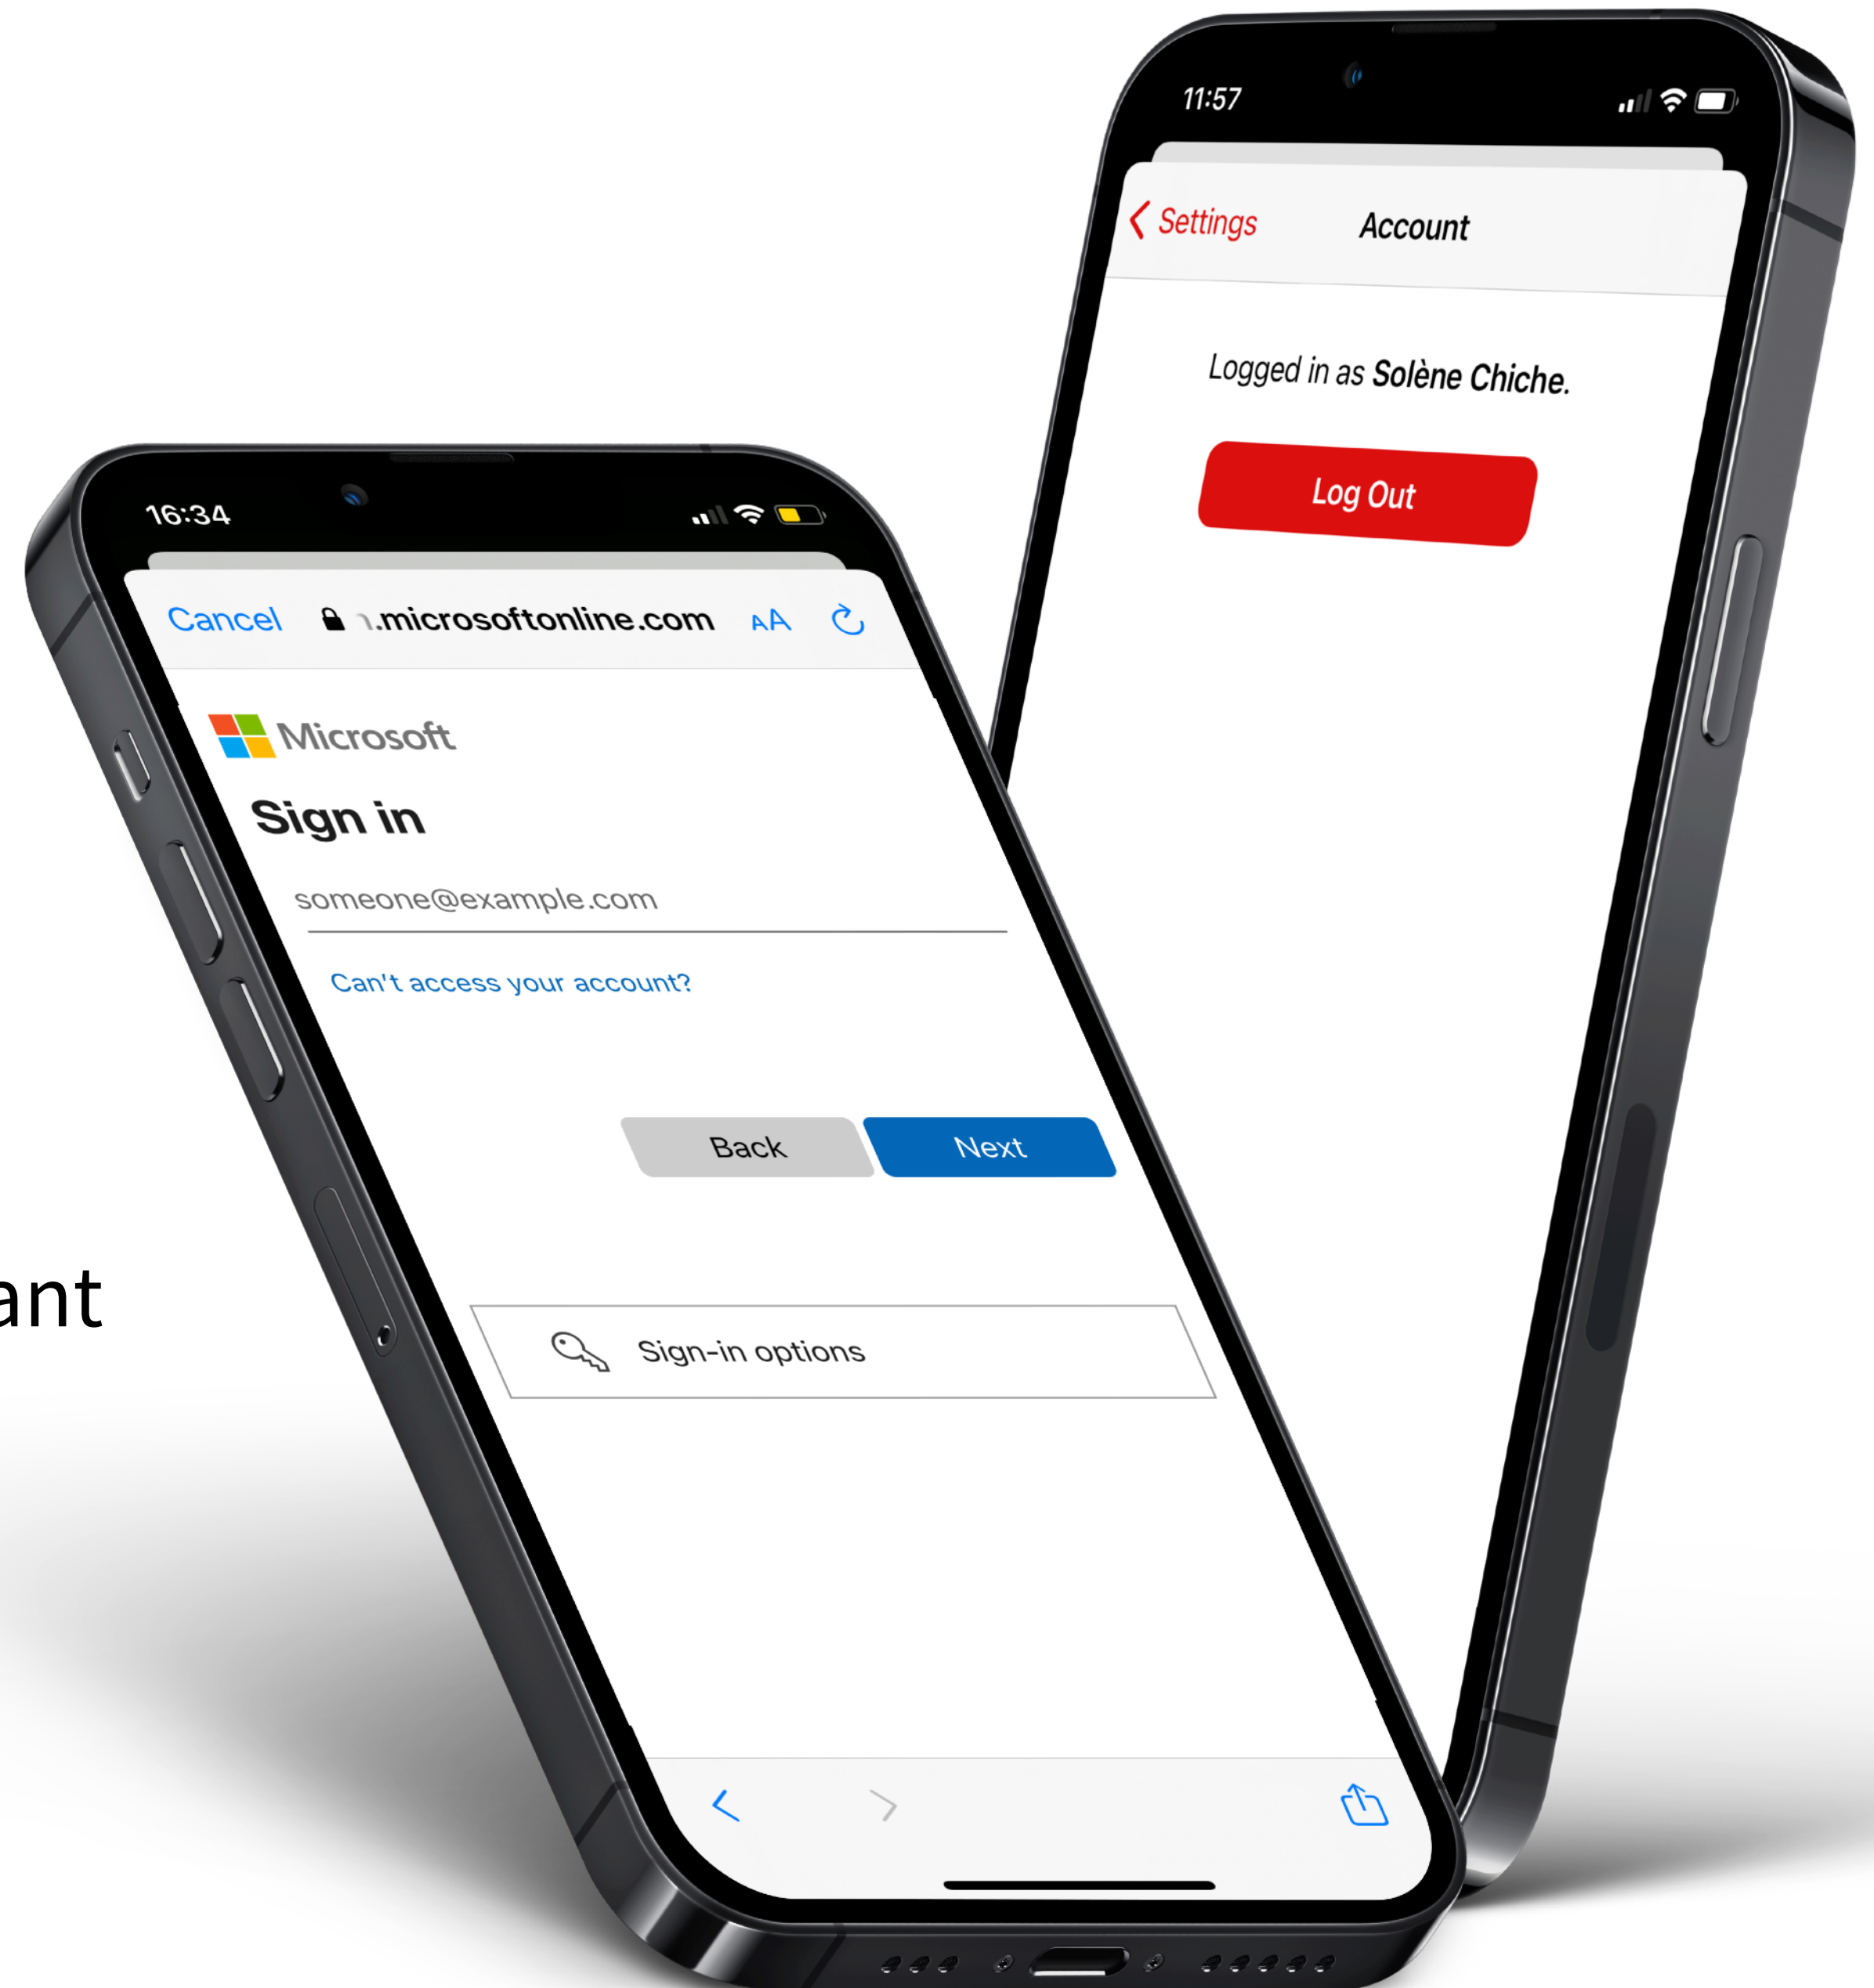

Platform Authentication & Security

- Integrate your existing login system(s)
- Login once, access all the features (SSO)
- Supports user-attribute-based permissions
- GDPR and Swiss Data Protection Law compliant

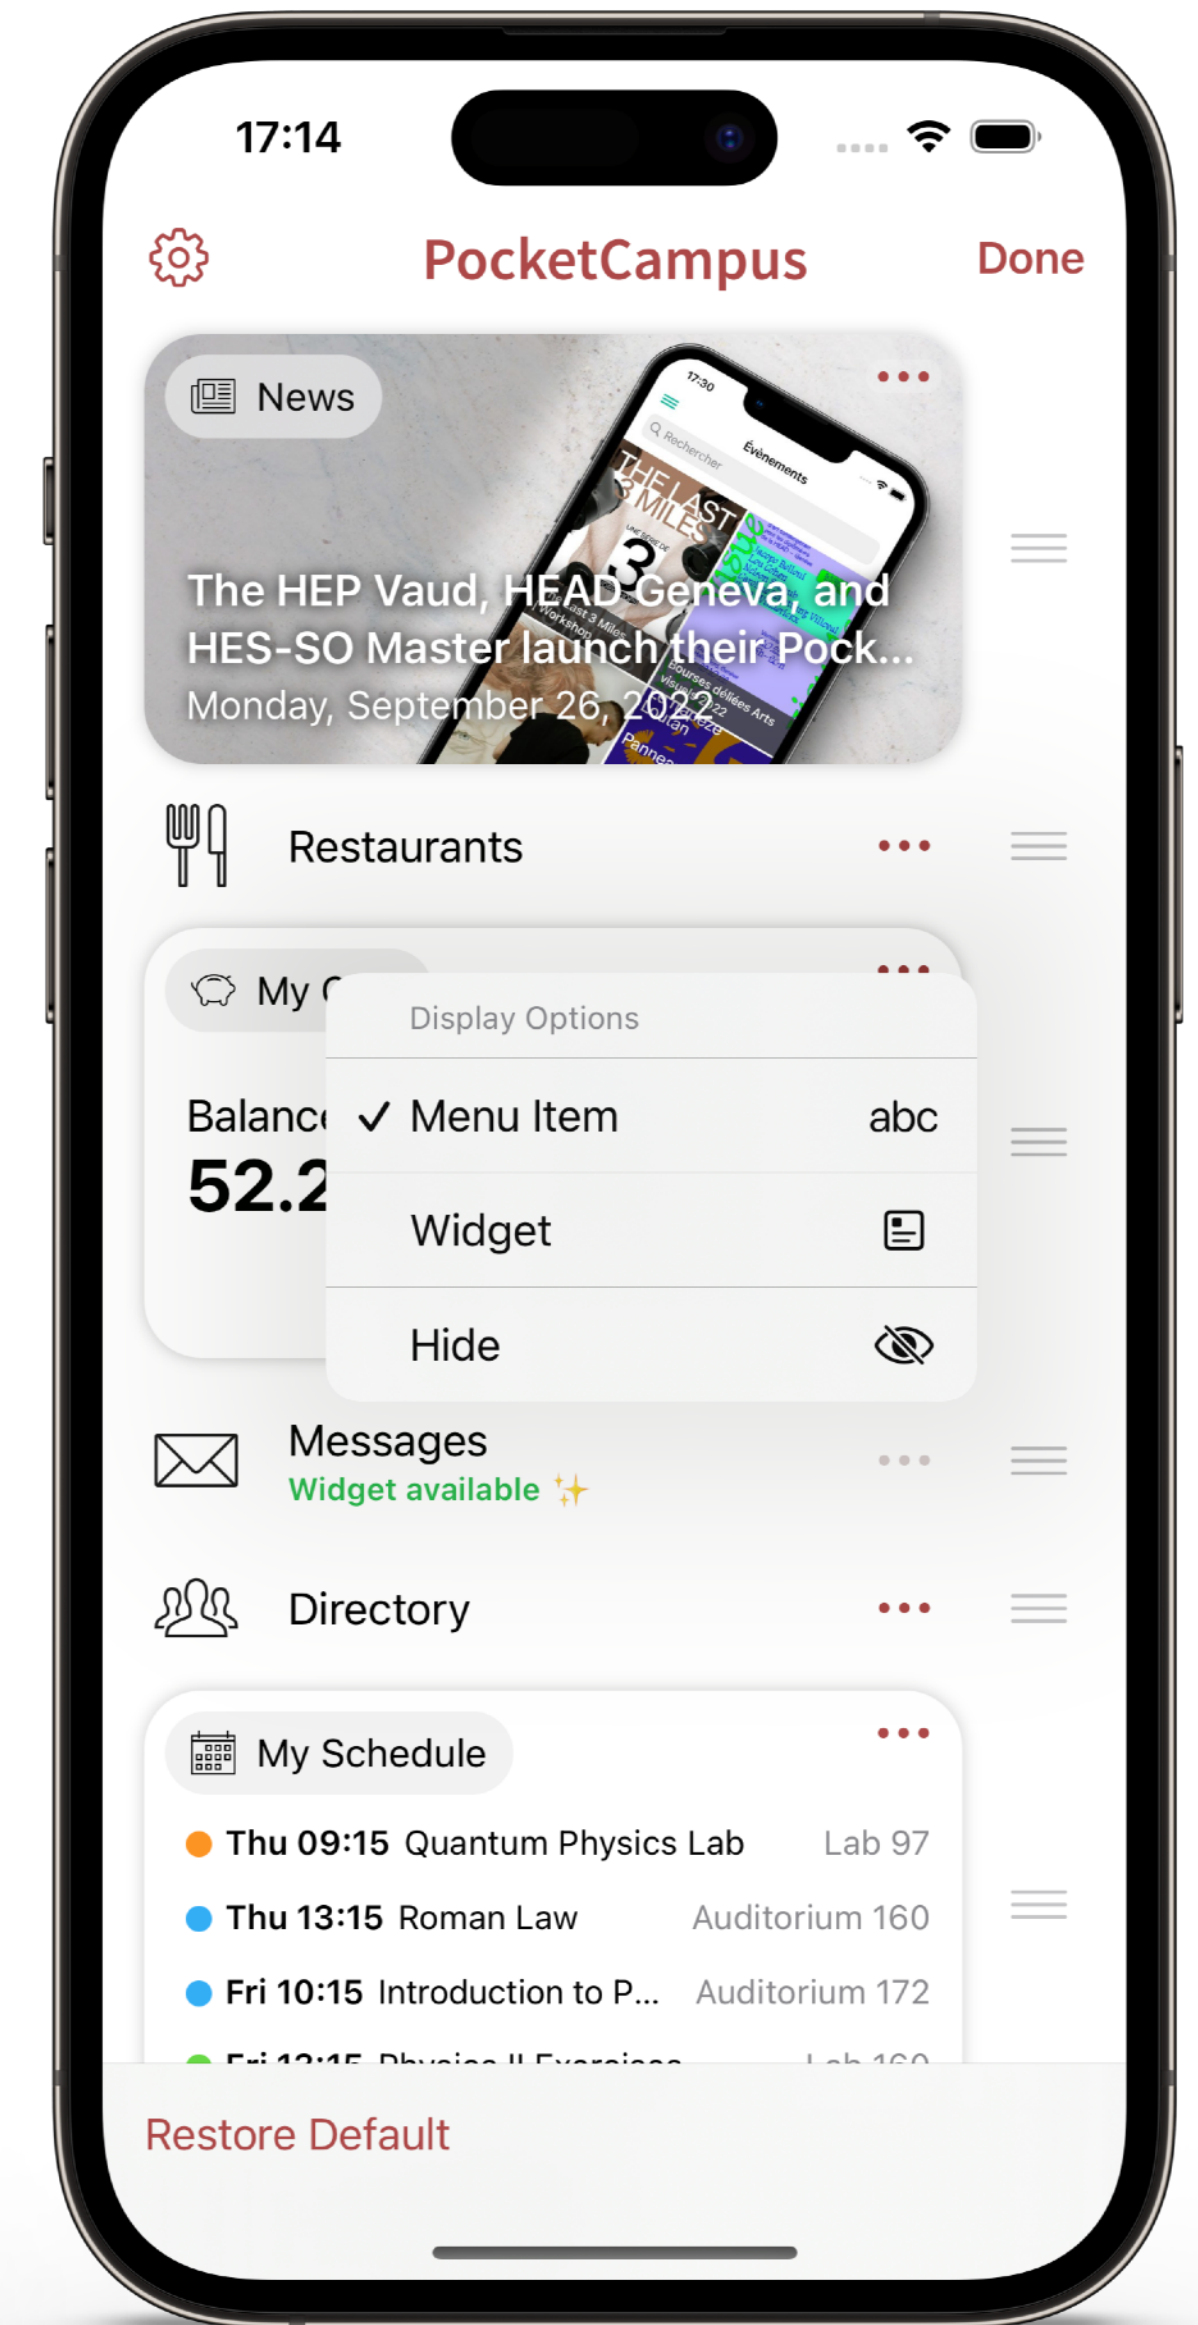

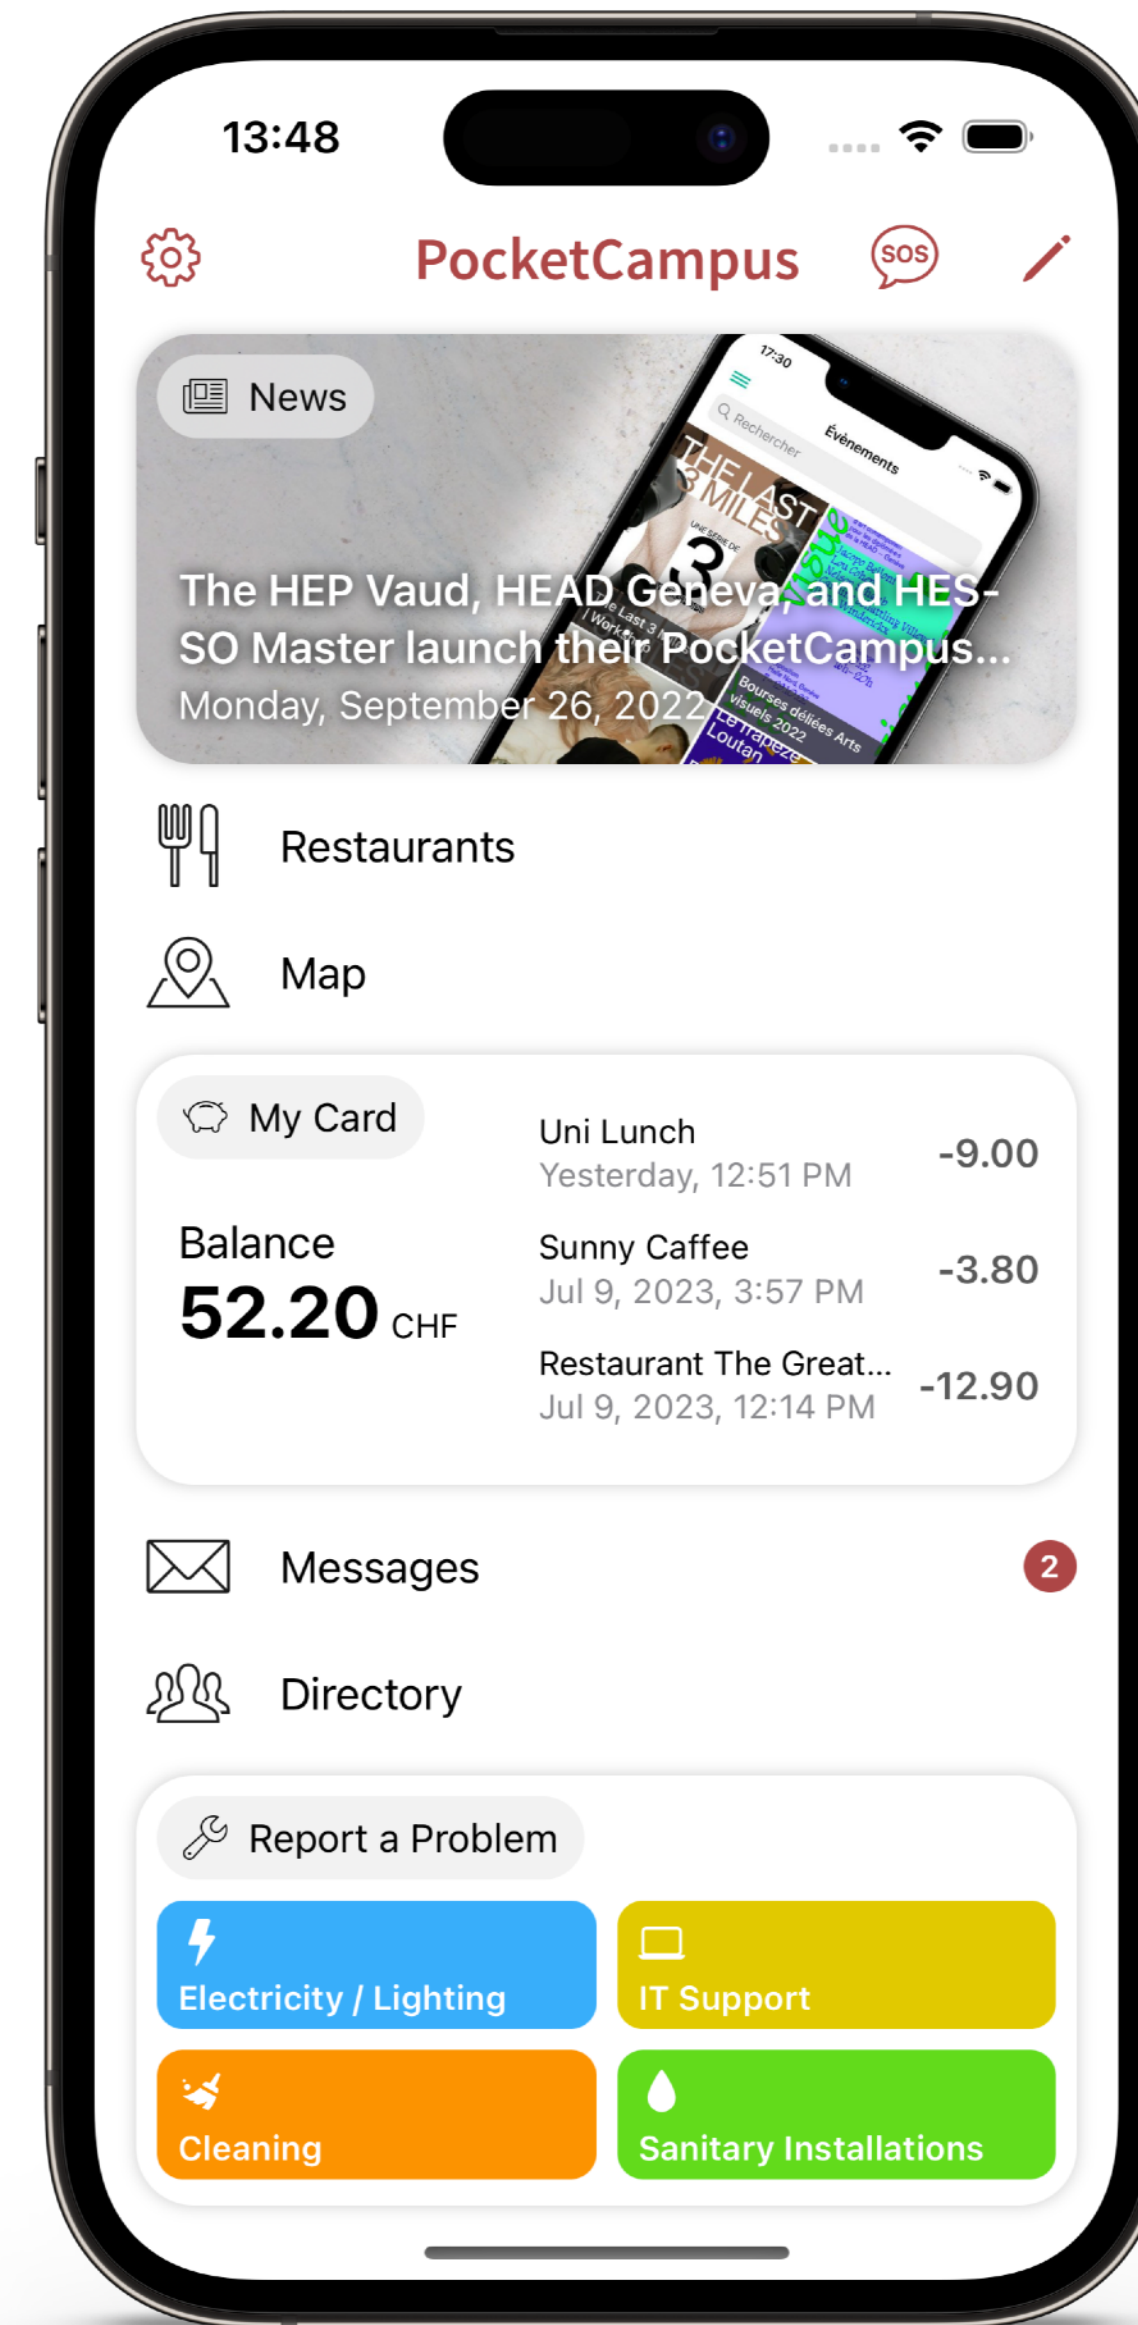

Integrations

OAuth2, OIDC, Azure AD, local AD

Platform Main Menu

- **Home screen** of the app
- Entry point to your **information & services** as standard buttons or *widgets*
- **Widgets** are exportable to the phone home screen (iOS and Android widgets)
- **SOS-button** for a one-tap call to your emergency number
- **User-customisable**

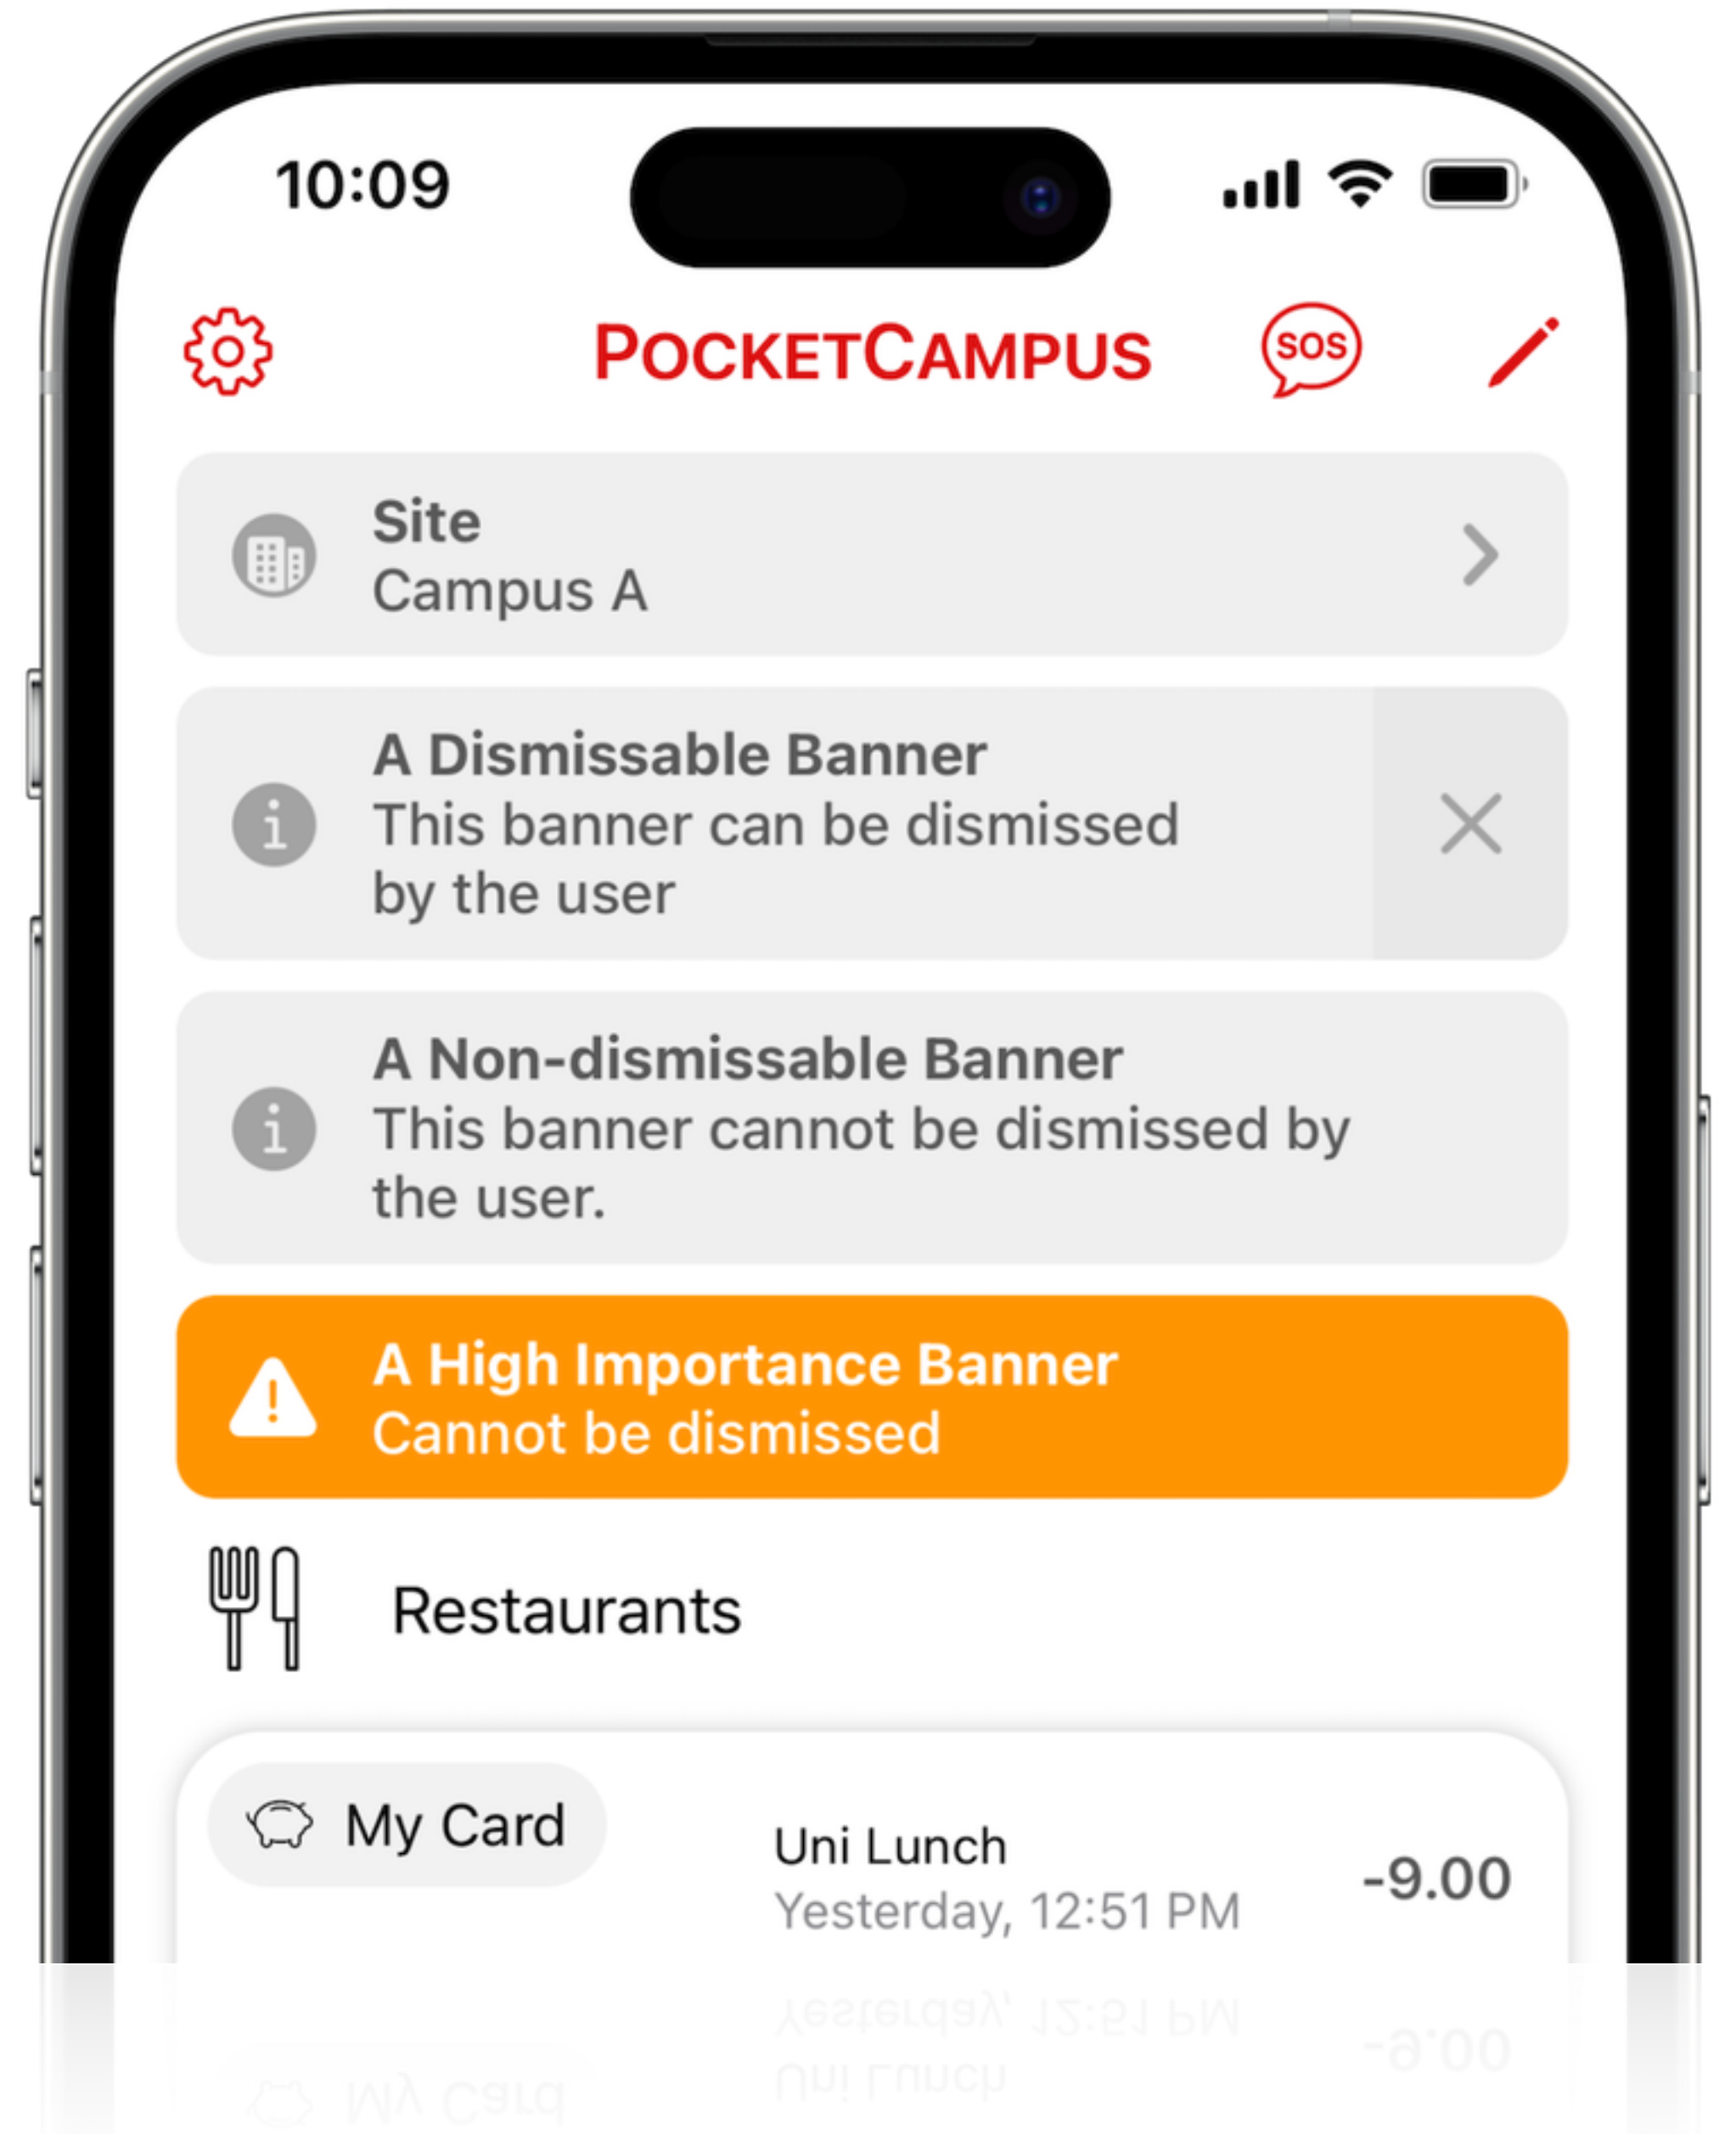

User Edit Mode

Platform

Main Menu Banners

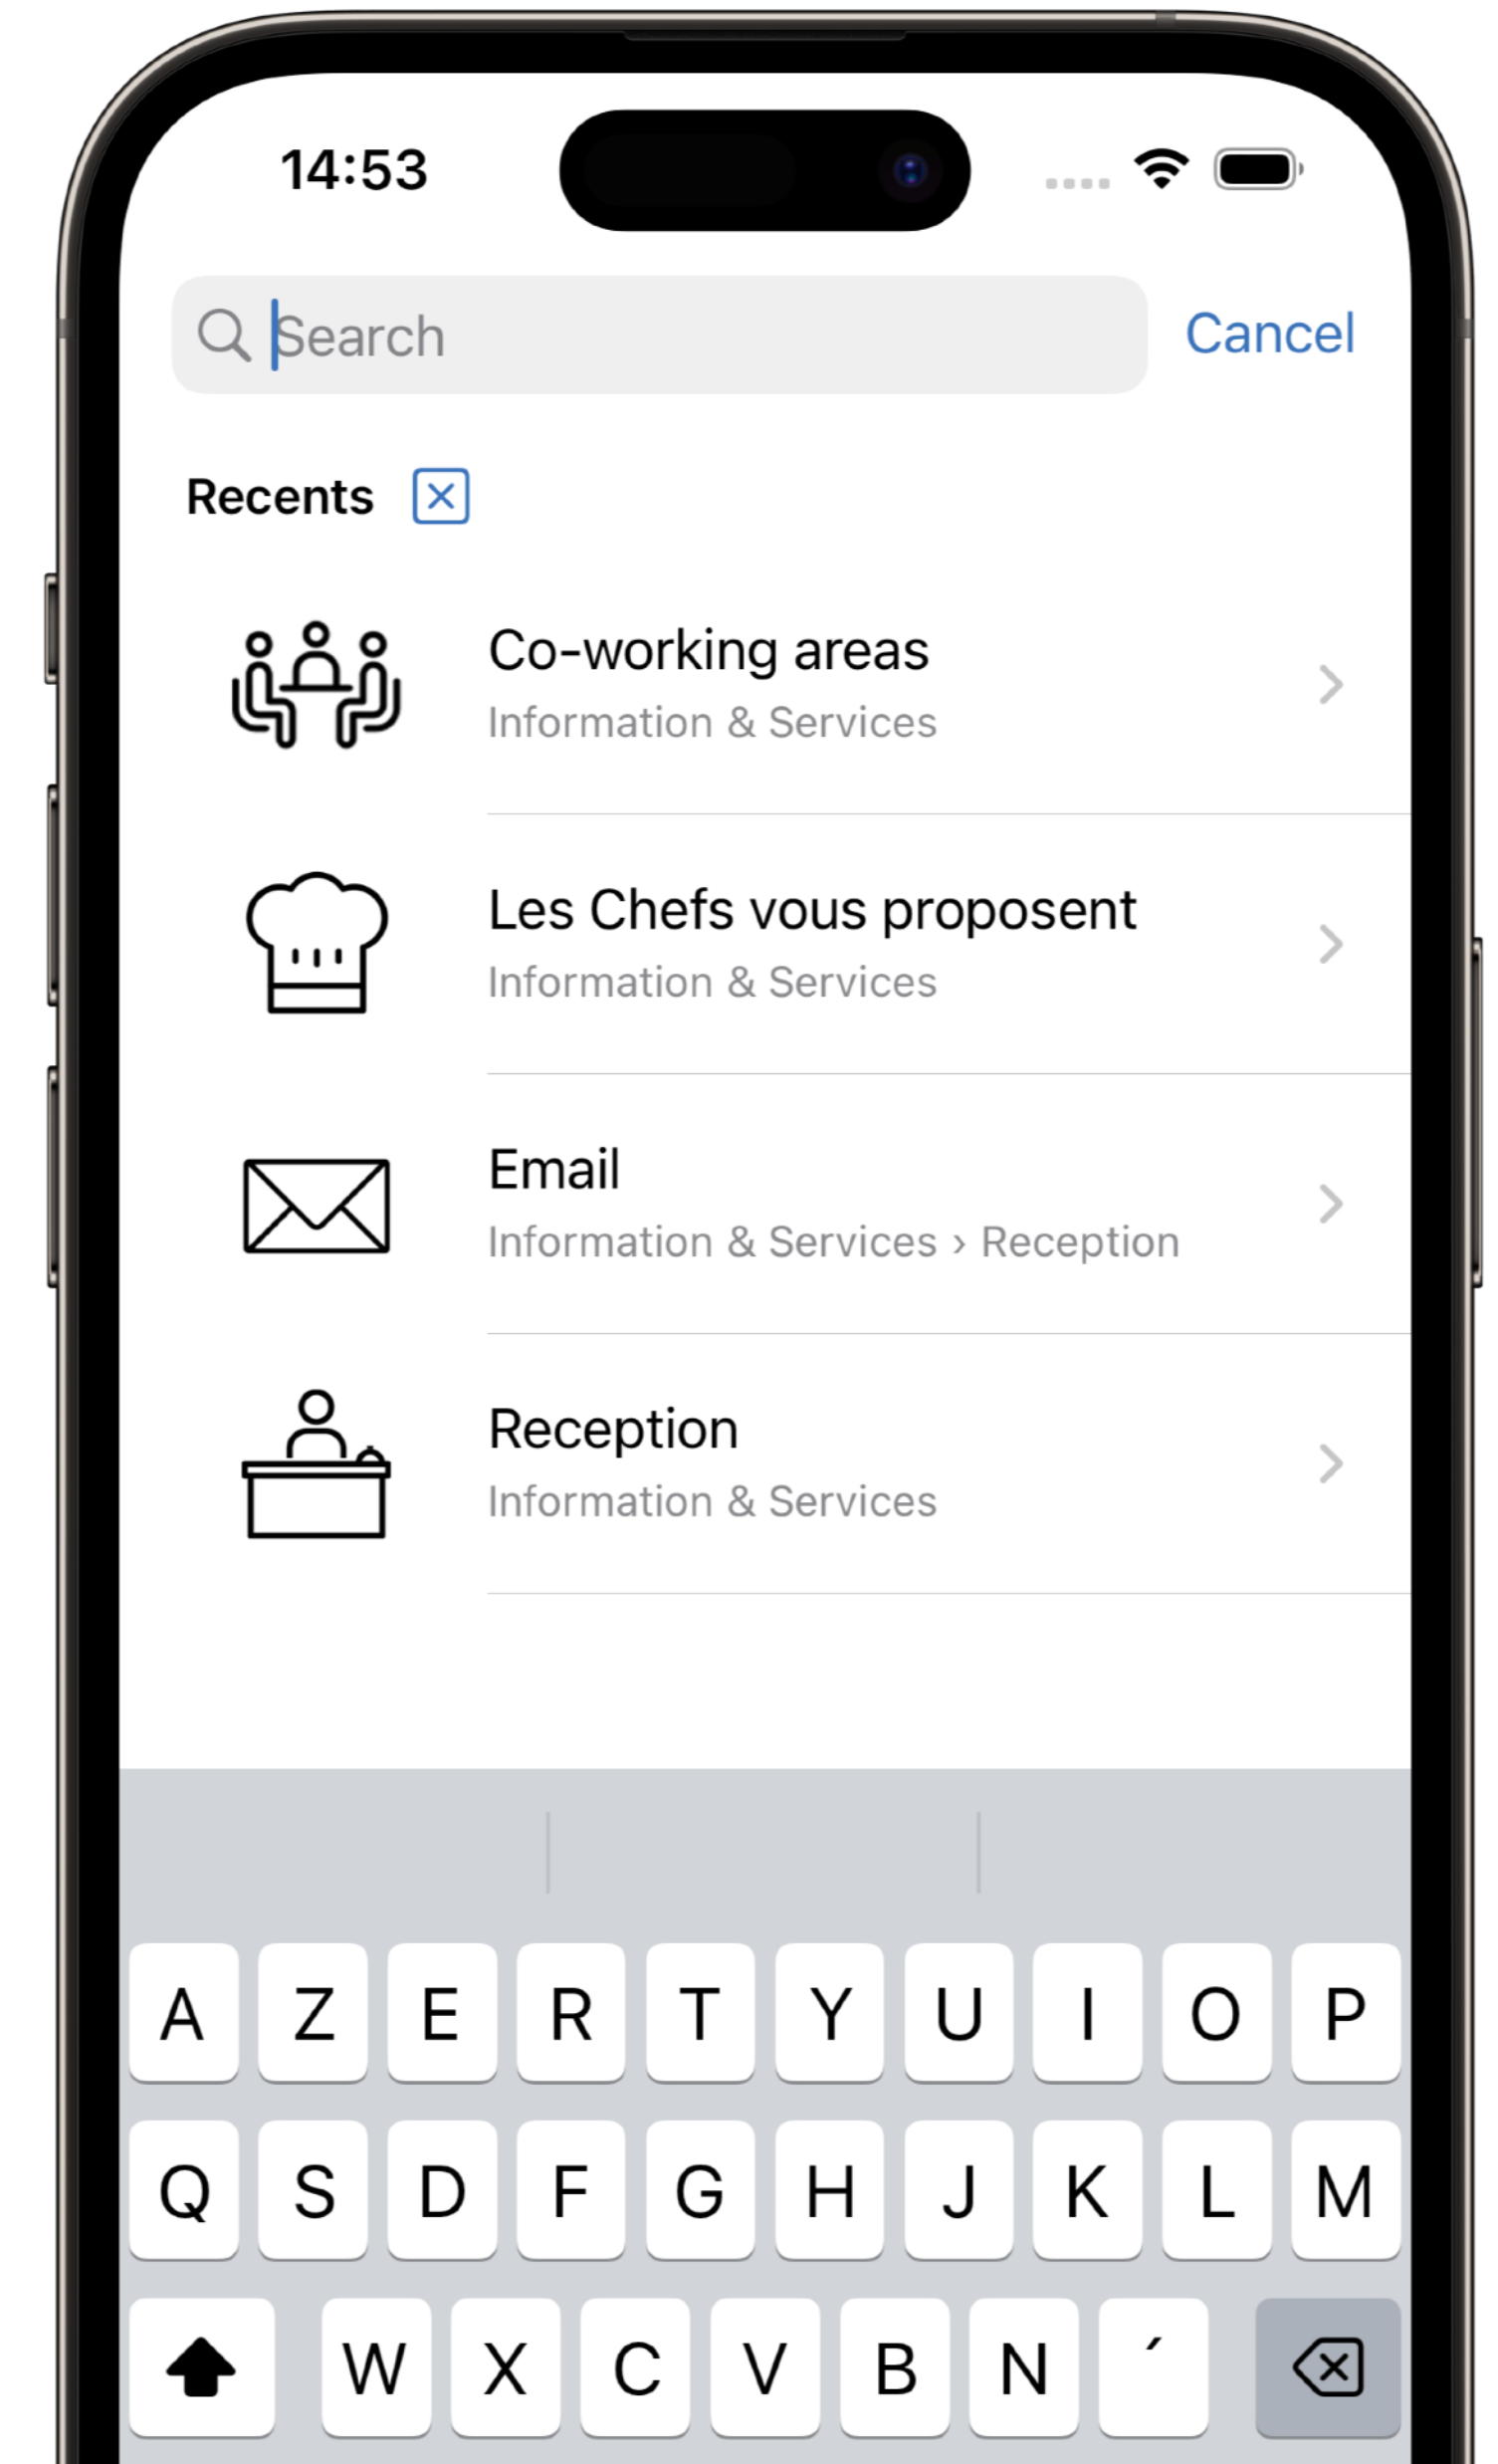

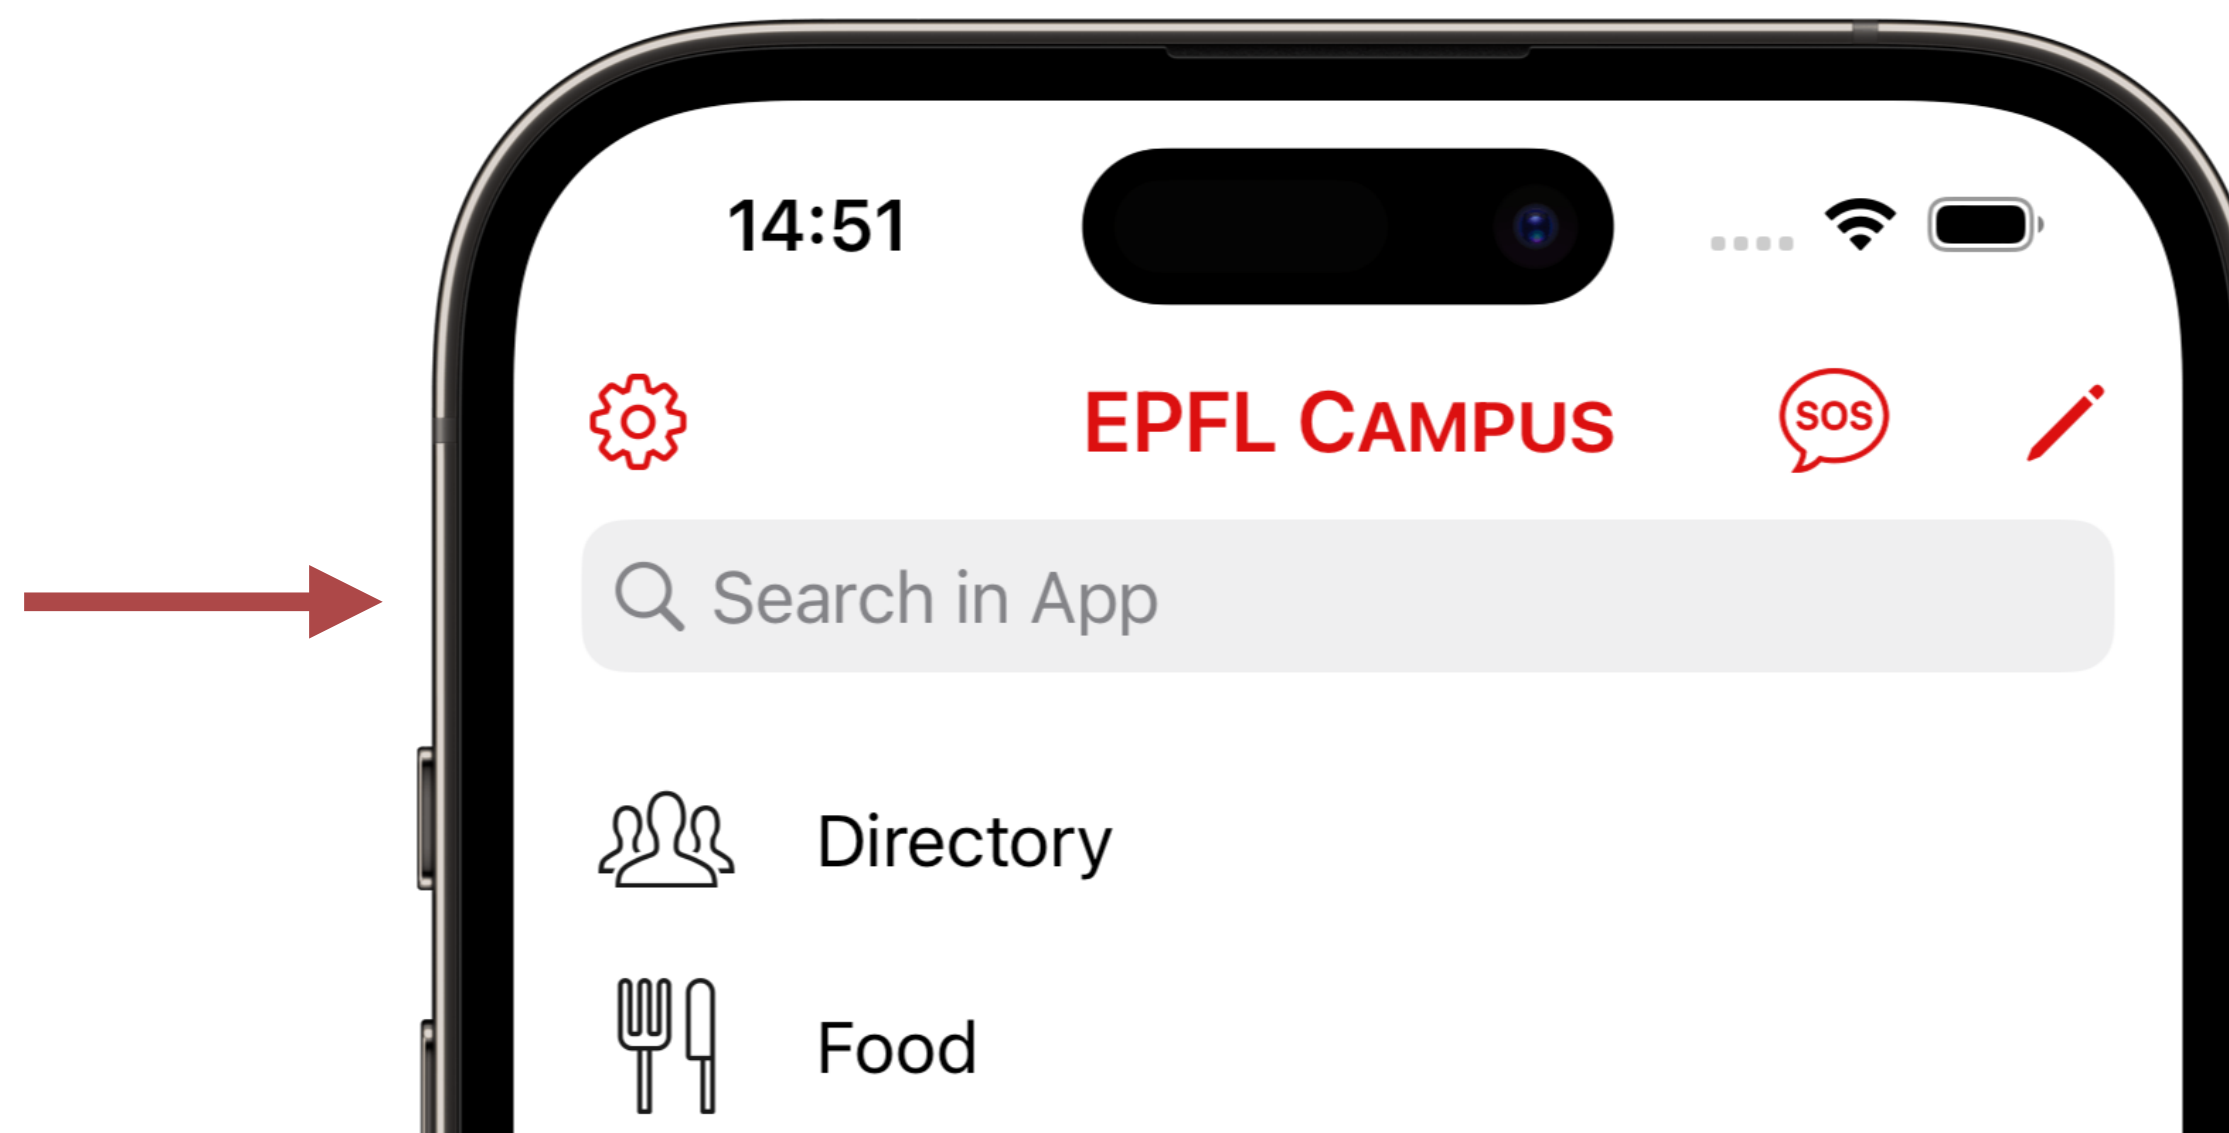

- Convey information at the top-level of the app
- Multiple styles and behaviours
- Shortcut to information, module, etc.

Platform

Global Search

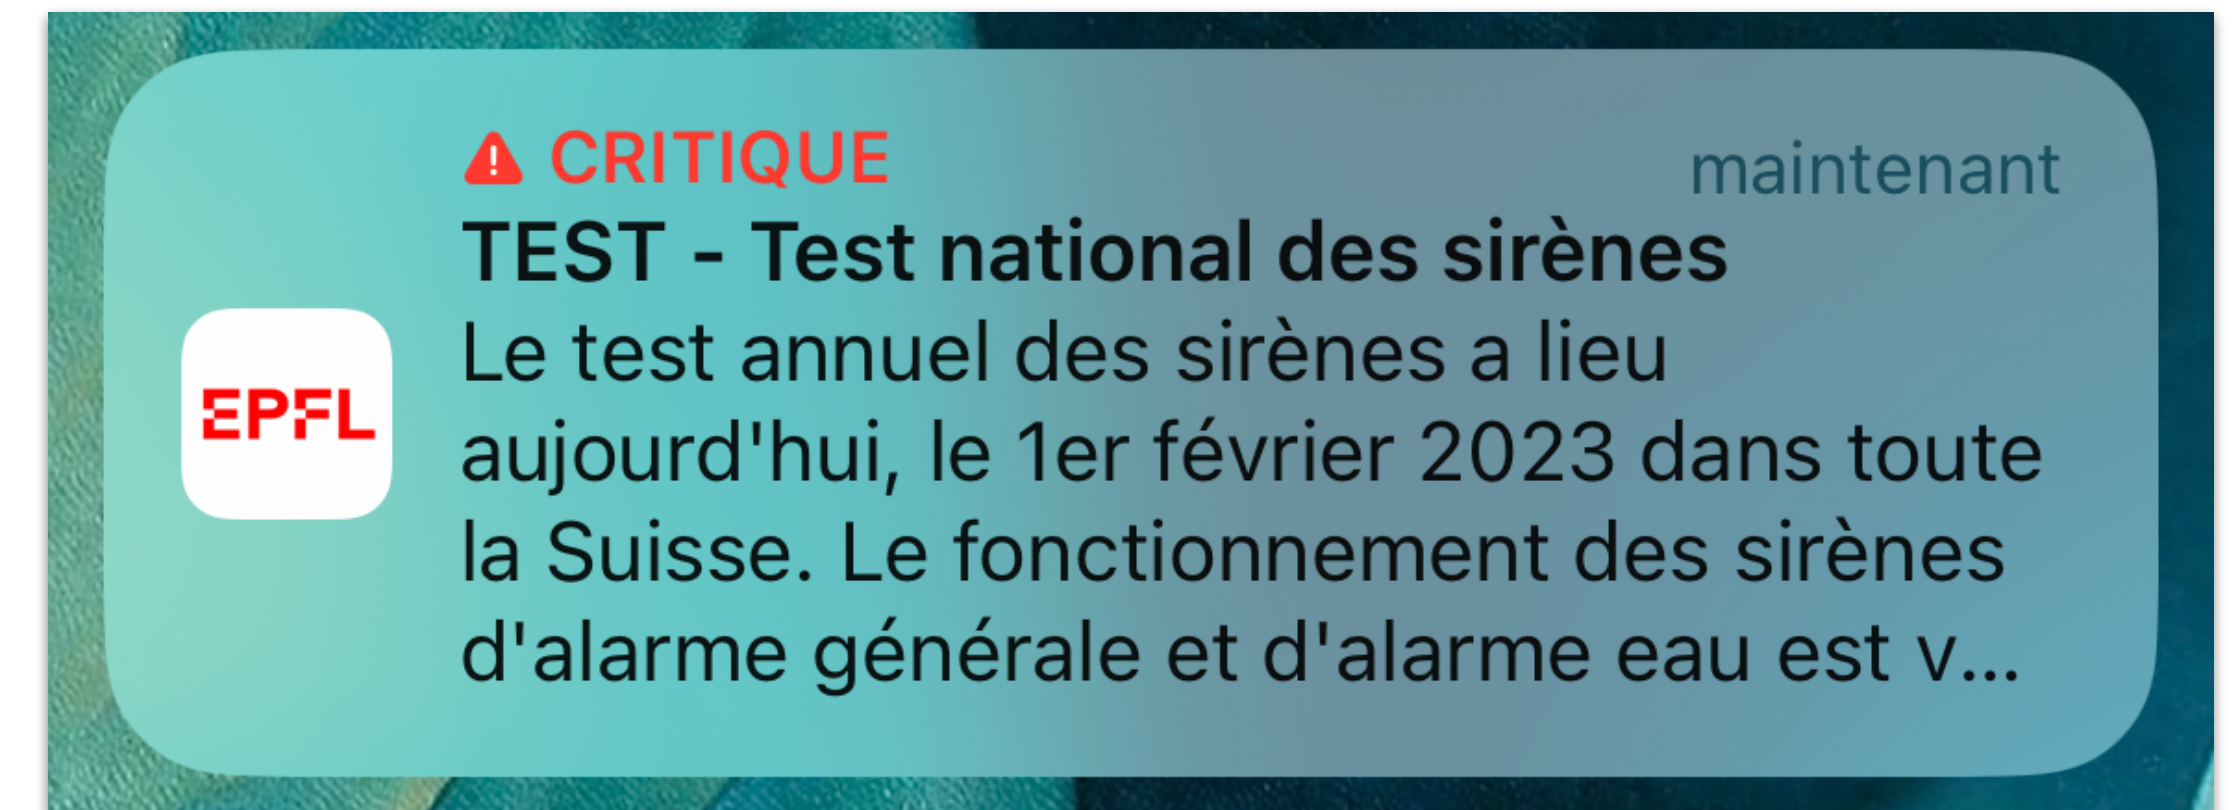

- Search bar at the top of the main menu
